

# How to set-up the Britex Deep Cleaning Machine

Live clean, love Britex.

- 1** Pull back the brass sleeve on the end of the black solution hose and attach it to the carpet wand underneath the trigger until it locks into place. Release the sleeve.

- 2** Pull back the smaller brass end of the black solution hose and insert it into the connection under the button at the front of the machine under the vacuum and pump switches.

- 3** Connect one end of the larger vacuum hose to the Tank A dome lid, and the other end to the carpet wand tube just above the wand trigger.

**4** Remove dome lid from Tank A.

If cleaning carpet or upholstery, add 2 capfuls of Britex defoamer. Replace the dome lid securely.

**Note: De-foamer is NOT required for Grout & Tile cleaning.**

**5** Fill Tank B with 9L of hot water, ensuring the water level does not go above the filter.

Add cleaning solutions as follows:

**Carpet:** 3 capfuls of Britex Carpet Cleaning Solution.

**Upholstery:** 4 capfuls of Britex Upholstery Cleaning Solution.

**Floor Grout & Tiles:** 3 capfuls of Britex Grout & Tile Cleaning solution.

**6** Plug the machine into your power point.

Turn both vacuum and pump buttons on for carpet & upholstery cleaning, alternate between vacuum and pump when cleaning grout & tiles.

You are now ready to clean!
