

HOW TO SET UP

The Britex Deep Cleaning Machine

- 1 Remove the vacuum hose and thin black solution hose from TANK A.

NOTE Please ensure hoses are placed back into TANK A when finished cleaning.

- 2 Pull back the brass sleeve on the end of the black solution hose and attach it to the carpet, upholstery or grout & tile wand underneath the trigger until it locks into place. Release the sleeve.

- 3 Pull back the smaller brass end of the black solution hose and insert into the connection point under the VAC and PUMP buttons at the front of the machine.

- 4 Connect one end of the larger vacuum hose to the TANK A dome lid and the other end to the carpet or upholstery wand.

HOW TO SET UP THE MACHINE

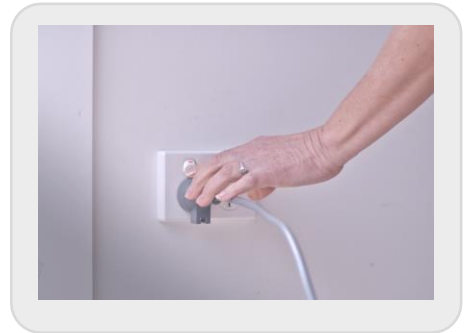

- 5** Fill TANK B with 9 litres of hot tap water.

NOTE Ensure water level does not go above filter

Add the carpet, upholstery or grout & tile cleaner as per instructions on bottle.

- 6** Plug the machine into a power source, switch ON and follow 'HOW TO CLEAN' instruction guides.

- 7** When you are finished cleaning empty the dirty water from TANK A. Release any remaining water in TANK B using the tap at the back of the machine. Replace hoses into TANK A, and clean machine thoroughly.
