For stains and odours from pet and human sources like urine, we recommend you use [Britex Urine Remover](#) - with its active enzymes - to get to the source of the stain and odour and totally eliminate them.

Prior to use:

Apply a small amount in an inconspicuous area to check for colourfastness. Using a white, absorbent cloth after one minute and check for colour transfer to be sure surface is colour-safe. User assumes all risks.

Directions:

- 1 Remove any solids or excess liquids.
- 2 Generously spray area.
- 3 Lightly agitate stained area working from edges toward centre.
- 4 Blot with a paper towel pressing deep into stain. (Difficult stains may require a second application).
- 5 Rinse with water and blot to dry.

For the quick and convenient clean up of spills & stains, keep **Britex Spot 'n' Stain Carpet & Upholstery Wipes** handy!

CAUTION: Keep out of the reach of children. Use only as directed, wash hands after use. Avoid contact with eyes.

Britex Urine Remover

Where to hire [→](#)

Part of Britex's Everyday Range, Britex Urine Remover is designed for acid based stains and associated odours. It can be used in conjunction with the Britex 3in1 Deep Cleaning Machine and the Britex Cleaning Solutions range as a pre-treatment, or used separately for targeted stain removal.

Britex Urine Remover will remove:

- ✓ Beer
- ✓ Blood
- ✓ Faeces
- ✓ Perspiration
- ✓ Urine
- ✓ Vomit

Prior to use:

Apply a small amount of **Britex Urine Remover** to the affected area. After one minute blot using a white, absorbent cloth and check for colour transfer to be sure surface is colour safe. User assumes all risks.

Directions:

When possible, act quickly as dried urine can sometimes have a bleaching effect on carpets and fabrics.

- 1 Remove any solids or excess liquids.
- 2 Turn nozzle and generously spray area. If using for urine or other penetrating types of stains, be sure to thoroughly wet area allowing product to reach backing and pad. Do not blot or wipe - enzymes need moisture to work.
- 3 Place a damp colour-safe towel over the treated area and let dry naturally. In most cases it's best to allow area to remain moist for 24-hours. Highly contaminated areas may require a second application.
- 4 Once dry, if discolouration remains, simply dampen with water and blot.

CAUTION: Keep out of the reach of children. Use only as directed, wash hands after use. Avoid contact with eyes.

Britex Grout & Tile Spray

Where to hire [→](#)

Part of Britex's Everyday Range, Britex Grout & Tile Spray is designed for to remove tough stains from floor tiles and grout. It can be used in conjunction with the Britex 3in1 Deep Cleaning Machine and the Britex Cleaning Solutions range as a pre-treatment, or used separately for targeted stain removal.

Britex Grout & Tile Spray will remove:

- ✓ Cooking Oil
- ✓ Grease
- ✓ Make Up
- ✓ Food Spills
- ✓ Grout Stains
- ✓ Soap Scum

Prior to use:

Spot test product on an inconspicuous area before use. User assumes all risks.

Directions:

- 1 Spray onto surface and leave for 5 minutes.
- 2 For heavily soiled areas, leave for up to 10 minutes.
- 3 Rinse surface with water then wipe clean with a damp sponge, cloth or mop.
- 4 For a more effective clean, scrub grout lines with a grout brush before wiping clean.

To pre-treat stubborn grout stains on tiled floors, spray Britex Grout & Tile spray onto affected areas prior to using the Britex Deep Cleaning machine. No need to rinse.

CAUTION: Keep out of the reach of children. Use only as directed, wash hands after use. Avoid contact with eyes.

Britex Odour Blaster

Where to hire →

Part of Britex's Everyday Range, Britex Odour Blaster is designed to remove lingering odours. It can be used in conjunction with the Britex 3in1 Deep Cleaning Machine and the Britex Cleaning Solutions range as a pre-treatment, or used separately for instant odour removal.

Britex Odour Blaster will remove odours from:

- ✓ Carpets
- ✓ Cigarette Odours
- ✓ Door Mats
- ✓ Faeces
- ✓ Laundry Baskets
- ✓ Pet Beds
- ✓ Rugs
- ✓ Runner / Shoe Odours
- ✓ Upholstery / Vinyl

Prior to use:

Spot test product on an inconspicuous area before use. User assumes all risks.

Directions:

- 1 Remove any solid matter from the area you are treating.
- 2 Spray the affected area directly and liberally with Britex Odour Blaster. Be careful of over-spray onto non-suitable fabrics or materials.
- 3 Allow the area to dry naturally.
- 4 Repeat 4-6 hours later for stubborn odours.
